

# Amazing Reality

## AMAZING REALITY

(sing to tune of "Amazing Grace")

Amazing things I see each day  
Before my very own eyes  
Things that can not be explained away  
They are real and are not lies

'Twas thinking mind and open eyes  
That allowed me to find  
All the wonder that in reality lies  
Available to anyone with open mind

I live a life with no need for delusions  
To enjoy all of life's grandeur  
There is no need for grand illusions  
When amazing reality has such allure

There is beauty in all that is real  
I am real and believe you are too  
Think about it and here is the deal  
Amazing Reality shows the world to you
