Amazing Reality

AMAZING REALITY (sing to tune of "Amazing Grace")

Amazing things I see each day Before my very own eyes Things that can not be explained away They are real and are not lies

'Twas thinking mind and open eyes That allowed me to find All the wonder that in reality lies Available to anyone with open mind

I live a life with no need for delusions To enjoy all of life's grandeur There is no need for grand illusions When amazing reality has such allure

There is beauty in all that is real I am real and believe you are too Think about it and here is the deal Amazing Reality shows the world to you
