

Nudity

Nudity in the Church of Reality is also a choice that we find acceptable. If you are in a place where others are publicly naked then there is no problem at all. We believe it's good to get a little sunlight on the skin. So we approve of nudity where public nudity is accepted.

However, in cases where you are the only one naked in a social setting, then Realists should use common sense and pay attention to local laws and use wisdom and social discretion.
