

Left Behind

Similar to concepts in other religions, the concept of "left behind" implies a punishment for disobeying religious law. This concept also exists within the Church of Reality but in our religion it is a metaphor for extinction.

The Church of Reality sees two paths for humanity, evolution and extinction. If we do the right things then we get to continue to exist or {In:Stay in the Game}. If we aren't smart and we defy the laws of nature and ignore reality then we will become extinct and we'll be left behind. If you reject reality - reality might reject you.
