What does REALITY Mean?

Definiton of Reality from Dictionary.com:
n.
- The quality or state of being actual or true.
- One, such as a person, an entity, or an event, that is actual: "the weight of history and political realities" (Benno C Schmidt, Jr.).
- The totality of all things possessing actuality, existence, or essence.
- That which exists objectively and in fact: Your observations do not seem to be about reality.
Idiom:
in reality In fact; actually.

Reality is that which still exists after you stop believing in it.
