He saw the Clues

I SAW DARWIN
(SING TO TUNE OF “I Saw the Light”)

I wondered where life could have begun
I couldn’t believe in any magical one
Then I came upon a theory to muse
Praise Darwin - he saw the clues!

I began to think! I began to think!
All of the facts they started to link
Now I’m so happy - reality to use
Praise Darwin - he saw the clues!

Just like a fool I wondered alone
Without reality my grasp was almost gone
Then I found reality was there for me to choose
Praise Darwin - he saw the clues!

Now that I know what’s real and I see
All of the wonder that surrounds me
I am so happy and I’m spreading the news
Praise Darwin - he saw the clues!
