Anytime, Anywhere, Anyone - Including You - Can Become a Realist

Any person, at any time, and anywher, can make the decision to become a realist and dedicate their lives to the truth. Anyone can pursue reality the way it really is. Anyone can give up living the lie right now and join the real world.

Haven’t you ever wondered what is really real? Which religion is the right one? Does God really exist? Did we evolve from pond scum? Is there life on other planets? Are we alone in the universe? Did time and space come from an exploding quantum singularity? Why does anything exist? What is time? Is there a relationship between quantum time and energy? What will humanity know 100 years from now? Did we create reality - or did reality create us?

We support the real answers, the way they really are. Reality is in all of us. You can hear it in your mind - feel it in your heart. Reality is everywhere. It surrounds us. It sustains us. The Church of Reality is dedicated to leading people into the great wonderment, into the understanding of understanding. You know that you want to know - don’t you? If you accept reality, reality can change your life! Are you ready to make a commitment to reality today?
