

Buying Ad Space for the Church of Reality

For those of you who have some money and you want to help, one thing you can do is to buy some advertising space on popular web sites to promote the Church of Reality. There're a lot of sites that have very good deals. The best sites to buy ads on are sites that are related. You want to go to sites where people hang out who might be interested in reality. Then you buy ad space and link it back to us. This not only helps us, but generates a little income for the site you buy ad space on. If it's a progressive web site, you are helping two causes at the same time.
